Children’s Services available within our centre include 3+ Pre-Kindergarten, Playgroup & Maternal Child Health.

**3+ Pre-Kindergarten** is a program that is specifically developed for the children in the sessions. Our programs are play based programs that reflects the children’s interests and development.

3+ Pre-Kindergarten assists children’s development in social and emotional skills, negotiating through play in a safe and caring environment. 3+ Pre-Kindergarten introduction and beginning for children as part of their educational journey assisting in the preparation of 4 year old kindergarten.

**Playgroup** operates every Friday morning during the term. Our community room offers a great space for children to engage in play based activities and interactions with other children, whilst still having the comforts of their carer with them.

Playgroup is a great opportunity for parents and carers to engage in conversation with other adults and to assist in fostering their child’s confidence and development in a safe, social and child friendly environment.

**Maternal Child Health** facilities and nurses are located with the community centre. The services of MCH are free and are a great opportunity to ensure that your child is thriving and to assist where there may be concern. The MCH nurses are also a great support for families from your child’s development, eating & sleeping issues through to your own health and wellbeing.

Please come along for a morning of fun and talk with our staff. If you would like further information please contact us today.
